Dr. of Philosophy - Granted 2017

*In the name of the Council and by the authority of the same be it known that*

**Craig Steven Wright**

*having fulfilled all the requirements and having passed all the examinations prescribed by the By-laws and Rules of the University has this day been admitted to the degree of*

**Doctor of Philosophy**

*with all the rights and privileges attached thereto and in witness whereof the Council has authorised the Common Seal of the University to be hercunto affixed*

COMMON SEAL AFFIXED ON THIS SEVENTH DAY OF APRIL TWO THOUSAND AND SEVENTEEN  
W112914371

*M. C. H.*

Chancellor

*Andrew Vann*

Vice-Chancellor and President

## The Graduate

FAMILY NAME: Wright  
GIVEN NAME(s): Craig Steven  
STUDENT NUMBER: [REDACTED]

## The Award

NAME OF AWARD:

Doctor of Philosophy

## FEATURES:

Graduates from the Doctor of Philosophy course have demonstrated a capability to produce independent research that clearly makes an original and significant scholarly contribution to knowledge. The degree is purely by research and involves no coursework.

## DETAILS:

The language of instruction is English. The examination of the PhD is undertaken by three internationally recognised examiners, one of whom may be an internal examiner.

Normal duration of study: 3 year(s).

The Australian Higher Education Graduation Statement is provided by Australian higher education institutions to graduating students on completion of the requirements for a particular higher education award. It provides a description of the nature, level, context and status of studies that were pursued by the individual named. Its purpose is to assist in both national and international recognition of Australian qualifications and to promote international mobility and professional recognition of graduates.

## Certified

Date 7 April 2017

Carmel O'Regan  
Executive Director  
Student Administration

## Awarding Institution

Charles Sturt University ([www.csu.edu.au](http://www.csu.edu.au)) is a national public university focused on excellence in education for the professions, quality research, and flexible delivery of learning and teaching. The University was formed in 1989 by the Charles Sturt University Act of NSW Parliament, as an amalgamation of predecessor higher education and research institutions dating back to 1895. Charles Sturt University is listed as an Australian University on the Tertiary Education Quality and Standards Agency's National Register of Education Providers. The University's Commonwealth Register of Institutions and Courses for Overseas Students number is 00005F (NSW).

### Academic Transcript

STUDENT NAME	Craig Steven Wright
STUDENT NUMBER	
COURSE NUMBER	2901AA
AWARD TITLE	Doctor of Philosophy

SESSION	CODE	SUBJECT NAME	GRADE	POINTS
Subjects attempted in this course:				
201030	ITC702	Doctoral Research (Full-time)	IP	
201060	ITC702	Doctoral Research (Full-time)	IP	
201130	ITC702	Doctoral Research (Full-time)	IP	
201160	ITC702	Doctoral Research (Full-time)	IP	
201230	ITC702	Doctoral Research (Full-time)	IP	
201260	ITC702	Doctoral Research (Full-time)	IP	
201430	ITC701	Doctoral Research (part-time)	SY	192
201460	ITC701	Doctoral Research (part-time)		

GRADE POINT AVERAGE: \*\*\*\*

#### KEY TO GRADING:

KEY TO GRADING:		Honours Grades
HD - High Distinction	SY - Satisfactory (practical work subjects)	H1 - Class 1
DI - Distinction	US - Unsatisfactory (practical work subjects)	H2a - Class 2 Division 1
CR - Credit	IP - In-Progress (multi-session subject, initial session(s))	H2b - Class 2 Division 2
PS - Pass	TCR - Transfer Credit	H3 - Class 3
FL - Fail	PCR - Proficiency Credit	
FW - Withdraw Fail		

**Grade Point Average (GPA):** is awarded according to the following scale and averaged across the amount of subject points attempted. A numeric value is assigned to each grade: HD - 7, DI - 6, CR - 5, PS - 4, FL & FW - 0. Only subjects with these grades are included in this calculation.  

$$GPA = \frac{[(\text{point value of subject}) \times (\text{numeric value of grade})]}{(\text{point value of subject})}$$

#### ACHIEVEMENTS:

Thesis title: The Quantification of Information Systems Risk

Information security is a sparse phenomenon that public and private organisations struggle to maintain. This thesis constitutes a comprehensive study of information security issues by modelling a systematic integration of the human, system and software risks, and costs. Advanced statistical techniques are used and quantitative models are deployed to quantify primary reasons of security flaws of information systems. The thesis has also addressed the economic issues associated with incorrectly handling and misalignment of information systems audit and the compliance.

## Description of the Australian Higher Education System

### INTRODUCTION

The Australian Higher education system consists of self-governing public and private universities and higher education institutions that award higher education qualifications.

### AUSTRALIAN QUALIFICATIONS FRAMEWORK

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools.

The AQF has 10 levels, each with defined criteria based on a taxonomy of learning outcomes. Higher education qualifications are placed between level 5 (the Diploma) and level 10 (the Doctoral Degree). The Bachelor Degree is at level 7. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of the knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type. The full set of levels criteria and qualification type descriptors can be found by visiting [www.aqf.edu.au](http://www.aqf.edu.au).

The main AQF qualifications awarded by higher education institutions are Bachelor Degrees, Masters Degrees and Doctoral Degrees. There are also three qualifications at the sub-degree level: the Diploma, the Advanced Diploma and the Associate Degree. At the graduate level but below the Masters Degree are the Graduate Certificate and Graduate Diploma.

Level	Summary	Qualification Type
Level 1	Graduates at this level will have knowledge and skills for initial work, community involvement and/or further learning	Certificate I
Level 2	Graduates at this level will have knowledge and skills for work in a defined context and/or further learning	Certificate II
Level 3	Graduates at this level will have theoretical and practical knowledge and skills for work and/or further learning	Certificate III
Level 4	Graduates at this level will have theoretical and practical knowledge and skills for specialised and/or skilled work and/or further learning	Certificate IV
Level 5	Graduates at this level will have specialised knowledge and skills for skilled and/or paraprofessional work and/or further learning	Diploma
Level 6	Graduates at this level will have broad knowledge and skills for paraprofessional and/or highly skilled work and/or further learning	Advanced Diploma Associate Degree Bachelor Degree
Level 7	Graduates at this level will have broad and coherent knowledge and skills for professional work and/or further learning	Bachelor Honours Degree Graduate Certificate Graduate Diploma Masters Degree
Level 8	Graduates at this level will have advanced knowledge and skills for professional highly skilled work and/or further learning	
Level 9	Graduates at this level will have specialised knowledge and skills for research, and/or professional practice and/or further learning	Doctoral Degree
Level 10	Graduates at this level will have systematic and critical understanding of a complex field of learning and specialised research skills for the advancement of learning and/or professional practice

#### ADMISSION

Requirements for admission to particular awards are set by the higher education institutions and provide a range of routes for entry and only admit those students considered to have potential to complete an award successfully. Admission of school leavers to undergraduate awards is typically on the basis of the level of achievement in Year 12 secondary education, although some institutions and awards also use interviews, portfolios or demonstrated interest or aptitude. Most institutions also provide alternative entry provisions via bridging or foundation programs for mature age students or other special provisions such as recognition or prior learning from previous study. Admission to post-graduate awards is generally based on the level of achievement in previous higher education studies and in most cases, admission to PhD awards is based on high achievement in a research Masters Degree or in a Bachelor Degree with first class honours or second class honours division A.

#### QUALITY

Quality Assurance and stringent approval requirements for higher education institutions ensure that Australia has an international reputation for high quality education.

The Tertiary Education Quality and Standards Agency (TEQSA) was established on 30 July 2011 as a new national regulator and quality assurance agency for higher education. TEQSA is an independent body with the powers to regulate university and non-university higher education providers and monitor quality against standards.

From 29 January 2012 TEQSA assumed responsibility for registering and re-registering providers and accrediting and re-accrediting awards for higher education providers that do not have authority to accredit their own awards. At the time of registration, re-registration, accreditation and/or re-accreditation, TEQSA evaluates the performance of a higher education provider against the Higher Education Standards Framework. The Standards Framework comprises: Provider Registration, Category and Course Accreditation Standards and Qualification Standards (based on the AQF). The Higher Education Standards Panel, which is independent from TEQSA, is responsible for developing and monitoring the Standards Framework.

TEQSA also undertakes quality assessments of individual providers or reviews issues with the sector across a cohort (thematic reviews). These reviews help to identify sectoral good practice, guide sectoral quality enhancement and inform policy and research.

TEQSA's primary aim is to ensure that students receive a high quality education at any of Australia's higher education institutions.

All higher education institutions receiving Australian Government financial support must meet quality and accountability requirements that are set out in the Higher Education Support Act 2003. The Australian Government also uses a range of tools to measure and monitor the quality of outcomes, while the interests of international students are protected by the Education Services for Overseas Students Act 2000 and the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS), providing tuition assurance and ensuring that institutions listed on CRICOS meet defined minimum standards.
